ANNA TAMLIN

Incoming Associate Product Manager Intern at IXL Learning, San Mateo, CA — Jan - Apr 2027

amtamlin@gmail.com | linkedin.com/in/annatamlin | anna-tamlin.github.io | +1-289-716-0320

Education

University of Waterloo — Waterloo, ON

Bachelor of Applied Science in Biomedical Engineering, 3.96 GPA — *Expected Graduation April 2028*

- **Options:** Management Sciences, Computing
- **Relevant Coursework:** DSA, Statistics and Experimental Design, Intro to Machine Learning, Interface Design

National University of Singapore — Singapore

Exchange Term, Department of Electrical and Computer Engineering — *Jan 2026 – May 2026*

Experience

Human Factors Research Technician Co-op — May 2026 – Sep 2026

Human Systems Incorporated — *Guelph, ON*

- Defined fleet electrification requirements and safety verification frameworks by synthesizing extensive military standards, vendor specifications, and failure analyses into a 150+ page actionable technical report
- Coordinated pre-production testing and user evaluations for a $19M contract, managing equipment logistics and protocols across multiple load-carriage designs
- Automated company-wide QMS workflows using Power Automate and SharePoint, improving ISO 9001 audit readiness through project lifecycle tracking, document control, training records, and equipment traceability

Undergraduate Research Assistant — May 2025 – May 2026

Vision and Image Processing Lab — *Waterloo, ON*

- Developed a multimodal Gemini video understanding pipeline for automated food recognition and temporal localization, reducing recognition failures by 83% versus PyTorch/LLaVA baselines (accepted to CVPR MTF 2026)

AI Systems & Optimization Intern — Sep 2025 – Dec 2025

Pepper (Series C, $50M+ raised) — *Toronto, ON*

- Wrote SQL queries across product databases to retrieve and filter catalog data for core platform applications
- Designed Django REST APIs to integrate AI workflows, supporting the creation of 15+ client-facing product demos
- Automated white-label app generation and deployment, reducing turnaround time by 95%+ through Python scripts and n8n workflows integrated with AWS Lambda and S3
- Improved Onyx AI platform adoption among 30+ cross-functional users by refining chat interface workflows and developing 10+ technical guides across Loom, Confluence, and Supademo

Data Engineering Intern — Jan 2025 – Apr 2025

Airbus (NAVBLUE) — *Waterloo, ON*

- Saved 30+ QA hours per week and reduced JIRA processing time by 90% by authoring Python and SQL automation scripts to validate and reconcile manual and automated aviation obstacle data captures across 140+ global airports
- Improved obstacle database accuracy by investigating manual and automated data discrepancies, identifying root causes, and coordinating software fixes with engineering teams

EHS Customer Experience Intern — May 2024 – Aug 2024

VelocityEHS — *Oakville, ON*

- Drove operational improvements by analyzing 7,000 JIRA tickets to identify recurring service and support bottlenecks
- Consolidated software platform customizations across 60+ customer accounts into customer-facing system specifications and technical reports

Projects

EMG-Controlled Whisk | *Mechanical & Electrical Design, Arduino* — Apr 2025 – Aug 2025

- Led development of an EMG-controlled assistive whisk prototype, integrating custom signal-conditioning circuitry, embedded firmware, and electromechanical actuation to translate muscle flexion into coordinated planetary rotation

CooCoo | *Flutter, Dart, Google Cloud Speech-to-Text API, OpenAI API* — Aug 2024

- Built an end-to-end Android app using speech recognition and APIs to enable automated misinformation detection

Skills & Interests

Product & Design: Agile/SDLC, User Evaluations, JIRA, Confluence, Figma, Notion, Lovable
AI & Machine Learning: Python, PyTorch, Multimodal LLMs/VLMs, Gemini API, OpenAI API, Computer Vision
Technical Infrastructure: SQL, Django REST APIs, AWS (Lambda, S3), Docker, Git, GitHub, n8n
Leadership & Interests: VP – UW Cheese Club (Logistics & Budgeting), BioTron Design Team, Rock Climbing, Travel, 2× National-Level Baton Twirling Competitor, Invitational Lloyd Auckland Math Workshop (1 of 70 nationwide)
